PROJECTS

TaskWave [GitHub]
Developed a secure, PHP-based assignment management system enabling teachers to post tasks and students to submit work. Implemented a responsive user interface using HTML/CSS and integrated real-time updates with MySQL for seamless task tracking.

Active Workout [GitHub]
Developed a full-stack fitness tracking platform using the MERN stack (MongoDB, Express.js, React.js, Node.js). Integrated APIs and dynamic forms to enable personalized workout logging and real-time tracking. Ensured smooth user experience with efficient state management and a responsive user interface.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern, Zinute — **Jan 2025 − Mar 2025**
Developed scalable features for a multi-tenant e-commerce platform using Nest.js and Redux with role-based access control. Built reusable components, optimized frontend performance, and integrated backend APIs to enable dynamic content rendering and enhance user experience.

ACHIEVEMENTS

- **Appthon Winner:** Built multiple full-stack apps in a day, recognized for speed and quality.
- **Smart Interviews:** Selected for all rounds based on coding proficiency and aptitude.
- **NPTEL Silver Badge:** Top performer in "DSA using Python" course.
- **LeetCode 100 Days Badge:** Consistent daily algorithm practice on LeetCode.

CERTIFICATIONS

- Programming Data Structures and Algorithms in Python – NPTEL
- Python Programming – CodSoft, GreatLearning
- Foundations of CyberSecurity – Coursera

LEADERSHIP & ACTIVITIES

- Core member, Google Developers Club – Led workshops, encouraged tech innovations.
- Organized Python sessions, coding marathons, and technical debates on campus.
